Dear Director Davis,

I write today to request that the Georgia Department of Veterans Service fully and fairly consider Morris Brown College's application to accept VA educational benefits from eligible student veterans and dependents. Earlier this year, Morris Brown College restored its accreditation with the Transnational Association of Christian Colleges and Schools (TRACS). Morris Brown College is the first Historically Black College and University to earn its accreditation back twenty years later.

Morris Brown College applied last year to the Georgia Department of Veterans Service to be approved as an institution that can serve veterans and eligible persons who receive educational assistance from the U.S. Department of Veterans Affairs. These financial aid programs are vital to ensuring more students will be able to attend and earn a degree at Morris Brown College.

I ask that you fully and fairly consider Morris Brown College's application for participation in the program and to brief my team on the status of the application. Thank you for your swift attention to this matter and for the work you do to support veterans in Georgia.

Sincerely,

---
